**Report on presentations in workshops
and conferences and articles published
in magazines and newspapers**

(Public)

31.03.2017

About SUCELLOG project

The SUCELLOG project - Triggering the creation of biomass logistic centres by the agro-industry - aims to widespread the participation of the agrarian sector in the sustainable supply of solid biofuels in Europe. SUCELLOG action focuses in an almost unexploited logistic concept: the implementation of agro-industry logistic centres in the agro-industry as a complement to their usual activity evidencing the large synergy existing between the agro-economy and the bio-economy. Further information about the project and the partners involved are available under www.sucellog.eu.

Introduction

The project objectives, activities and results are disseminated by the project partners through different channels. Two important channels are hard and online media (journals, magazines, newsletters, newspapers etc.) and events. The main tools used in these channels are publications in conference proceedings, printed publications (newspapers, magazines), electronic online publications - news and articles, presentations, posters and distributions of project flyer. The major target groups are agro-industries, farmers and regional and national agrarian associations.

It has been foreseen to present project activities and outcomes in at least 8 events at national level and 4 at European level. By the end of the project (31 March 2017) and in the following months SUCELLOG project specific presentations were given in 17 national events in Austria, Spain, Italy and France and in 8 international events. 3 articles about the project has been published in conference proceedings, 35 articles in printed media and more than 135 electronic publications, including online articles and articles in electronic newsletters.

Chapter 1 of this report provides information about project publications (in conference proceedings, printed newspapers and magazines, and electronic publications in project partners or third-party websites and newsletters).

Chapter 2 contains an overview about all presentations – project specific presentations and other presentations referring to the project and its activities – given during events organised by third parties.

In Chapter 3 all other dissemination activities are described, e.g. distribution of SUCELLOG project flyers and participation in interactive discussions during third party events.

Summary of the dissemination effort per partner is given in Chapter 4.

In the Annex of this report summary of SUCELLOG project specific presentations on third party events are provided.

1. Publications, papers and articles

1.1. Publications in journals and conference proceedings

As SUCELLOG is not a research project, it is less expected to write publications in scientific journals. Table 1 gives an overview about project publications in proceedings of conferences.

1.2. Publications and articles in printed newspapers and magazines

SUCELLOG articles have been published in several printed newspapers and magazines which are specifically targeted to agro-industries and farmers. Overview of those publications is provided in Table 2.

1.3. Electronic publications in newsletters and websites

Information related to SUCELLOG project has been published in several newsletters and as online articles on different websites. Table 3 is summarising information about publications in newsletters and on-line articles on the websites of project partners or third-parties. It does not include publications in SUCELLOG project regular newsletter and information published on SUCELLOG project website.

2. Presentations

2.1. Presentations specific for SUCELLOG project

Table 4 provides an overview on the presentations done by the project partners specific for SUCELLOG project in conferences, workshops, meetings and other third party organised events. The list includes both – oral and visual (poster) presentations.

Table 4: SUCELLOG project specific presentations

No	Dissemination level	Name of event	Partner/ Presenter	Title	Date	Place	Oral / visual	PPT pres./ Poster
1	National (France)	Meeting of CA Coopenergie administrators	SCDF, Coopenergie/ Cyril Flamin	SUCELLOG project	16.04.2014	Thenelle, Aisne, France	Oral	Yes
2	National (Spain)	Envifood meeting point	Spanish Cooperatives/ Juan Sagarna	Impulsando la creation de centros logísticos de biomasa en la agroindustria	12.06.2014	Madrid, Spain	Oral	Yes
3	National (France)	Energy committee for cooperatives	SCDF/ Camille Poutrin	La valorisation de la biomasse et des installations des coopératives agricoles en France: le projet européen SUCELLOG	01.10.2014	Paris, France	Oral	Yes
4	International	Expobiomasa, International Fair of Bioenergy	CIRCE/ Eva López	Centros logísticos de biomasa en instalaciones de la agro-industria. Proyecto SUCELLOG	22.10.2014	Valladolid, Spain	Oral	Yes
5	International	Ecomondo: 18 th International Trade Fair of Material & Energy Recovery and Sustainable Development.	DREAM/ Enrico Pietrantonio	SUCELLOG	07.11.2014	Rimini, Italy	Oral	Yes
6	National (France)	ADEME Champagne	SCDF/ Camille Poutrin	Projet européen SUCELLOG. Organisation et concept	26.11.2014	Châlons-en-Champagne, France	Oral	Yes
7	National (France)	RMT biomasse et territoires (logitic comity)	SCDF/ Camille Poutrin	La valorisation de la biomasse et des installations des coopératives agricoles en France: le projet européen SUCELLOG	27.11.2014	Paris, France	Oral	Yes
8	National (France)	RMT biomasse et territoires (general assembly)	SCDF/ Camille Poutrin	Optimisation technologique et économique des filières	12.12.2014	Paris, France	Oral	Yes
9	National (Spain)	VII congreso cooperativas agro-alimentarias	Spanish Cooperatives/ Juan Sagarna	El reto de la energía en las cooperativas	26-27.02.2015	Valencia, Spain	Oral	Yes
10	National (Austria)	Erfahrungsaustausch Kammersekretäre	Lk-Stmk/ Alfred Kindler	Agrarische Brennstoffe - Chance gegen die Energiekrise	20.05.2015	Halbenrain, Austria	Oral	Yes
11	International	European Biomass Conference and Exhibition (EUBCE)	WIP/ Cosette Khawaja	The SUCELLOG Project Triggering the creation of biomass logistic centres by the agro-industry	03.06.2015	Vienna, Austria	Oral	Yes

No	Dissemination level	Name of event	Partner/ Presenter	Title	Date	Place	Oral / visual	PPT pres./ Poster
12	International	International Pellet Workshop	Lk-Stmk/ Alfred Kindler	Maisspindel – der innovative Rohstoff vom Acker	09.06.2015	Cologne, Germany	Visual	Yes
13	National (France)	salon Tech&Bio de Valence	SCDF/ Benoit Dancert (Rhône-Alpes Auvergne)	SUCELLOG	23-24.09.2015	Valence, France	Visual	Yes
14	National (France)	Meeting of CA Coopenergie administrators	SCDF, Coopenergie/ Cyril Flamin	SUCELLOG project	15.10.2015	Clairoix, Oise, France	Oral	Yes
15	International	Ecomondo: 19 th International Trade Fair of Material & Energy Recovery and Sustainable Development.	DREAM/ Marcello Miozzo	SUCELLOG	03.11.2015	Rimini, Italy	Oral	Yes
16	National (Italy)	Legacoop meeting	DREAM/ Chiara Chiostrini	SUCELLOG	12.01.2016	Roma, Italy	Oral	Yes
17	National (Spain)	VI Seminario de cereals	Spanish Cooperatives/ Susana Rivera	Proyecto SUCELLOG Centros logísticos de biomasa en instalaciones de la agroindustria	02.02.2016	Madrid, Spain	Oral	Yes
18	International	39 th International Fair on Agricultural Machinery	CIRCE/ Eva López	Triggering the integration of biomass logistic centres in the agro-industry	17.02.2016	Zaragoza, Spain	Oral	Yes
19	International	24 th European Biomass Conference and Exhibition (EUBCE)	WIP/ Ilze Dzene	The SUCELLOG Project Triggering the creation of biomass logistic centres by the agro-industry	07.06.2016	Amsterdam, the Netherlands	Oral	Yes
20	National (France)	Meeting of CA Coopenergie administrators	SCDF, Coopenergie/ Cyril Flamin	SUCELLOG project	13.06.2016	Thenelle, Aisne, France	Oral	Yes
21	National (France)	Meeting of CA Coopenergie administrators	SCDF, Coopenergie/ Cyril Flamin	SUCELLOG project	03.10.2016	Venette, Oise, France	Oral	Yes
22	National (Spain)	Workshop “Oportunidades de la biomasa en Aragón”	Spanish Cooperatives/ Jesús Abadías	Proyecto SUCELLOG Centros logísticos de biomasa en instalaciones de la agroindustria	30.11.2016	Zaragoza, Spain	Oral	Yes
23	International	13 th International Animal Production Show	CIRCE/ Daniel García	Estrategia para el uso de biomasa por el sector ganadero y agroindustrial. Oportunidad de producción de biomasa para la agroindustria-proyecto SUCELLOG	31.03.2017	Zaragoza, Spain	Oral	Yes
24	National (Spain)	Radio interview in Spanish national radio - RNE	CIRCE	Interview about SUCELLOG project and case studies in Spain	15.04.2017	Spain	Oral (interview)	Yes
25	National (Spain)	Broadcast on Spanish Television	CIRCE	Broadcast describing SUCELLOG concept and example of one of the case studies	20.05.2017	Spain	Oral (broadcast)	Yes

2.2. Other presentations

Other presentations include interactive discussions or more general presentations where SUCCELOG project has been discussed or mentioned. The overview of these presentations is provided in Table 5.

Table 5: Other presentations on events organised by third parties

No	Dissemination level	Name of event	Partner/ Presenter	Title	Date	Place	Type of the presentation	PPT pres./ Poster
1	National (France)	ADEME	SCDF/ Camille Poutrin	SCDF current projects	28.11.2014	Angers, France	Oral	Yes

30	International	6 th International Conference on Engineering for Waste and Biomass Valorization	RAGT/ Matthieu Campargue	Session A6 - Pretreatment process- Chairman speech	25.05.2016	Albi, France	Oral	n/a
31	National (France)	Telephone presentation to Deloitte	SCDF/ Camille Poutrin	Presentation of SCDF work on biomass, including SUCELLOG	25.05.2016	Paris, France	Oral (phone)	n/a
32	National (France)	Telephone presentation to Contrôle Union	SCDF/ Camille Poutrin	About labels on biomass - use of SUCELLOG experience	30.05.2016	Paris, France	Oral (phone)	n/a
33	National (France)	Telephone presentation to the Agricultural Chamber of Normandie	SCDF/ Camille Poutrin	Presentation of all logistic issues from SCDF, including SUCELLOG	04.06.2016	Paris, France	Oral (phone)	n/a
34	National (Austria)	Excursion of Students FH Wieselburg	Lk-Stmk/ Klaus Engelmann		13.06.2016	Halbenrain, Austria	Visual/Oral	Yes
35	National (France)	Logis'tech workshop	SCDF/ Camille Poutrin	La valorisation de la biomasse et des installations des coopératives agricoles en France : le projet européen SUCELLOG	20.06.2016	Bourgogne Pellets, France	Oral	Yes
36	National (Spain)	Grupo de trabajo de sostenibilidad integral de la industria alimentaria	Spanish Cooperatives/ Susana Rivera	General overview of the main projects of Spanish Cooperatives regarding the sustainability	27.06.2016	Madrid, Spain	Oral	n/a
37	National (Italy)	La Bioeconomia Italiana in una prospettiva di economia circolare	DREAm/ Marcello Miozzo	General presentation of European projects of DREAm, including SUCELLOG	12.07.2016	Florence, Italy	Oral	Yes
38	National (France)	Meeting of Silos dust network of CDF	SCDF/ Camille Poutrin	Presentation of the pelletising as energy opportunity during this meeting	13.09.2016	Paris, France	Oral	n/a
39	National (Italy)	PSR 2014-202 Le opportunità per lo sviluppo del settore agroalimentare	DREAm/ Andrea Triossi	General presentation of European projects of DREAm, including SUCELLOG	26.09.2016	San Casciano Val di Pesa (FI), Italy	Oral	Yes
40	National (Italy)	Partiamo al Sud - Stati generali delle cooperative del Mezzogiorno aderenti a Legacoop	DREAm/ Alessandro Contri	The possibilities of the bioenergy sector, giving examples from SUCELLOG project experiences	30.09.2016	Matera, Italy	Oral	n/a
41	National (Austria)	Konferenz Klima und Energieregionen	Lk-Stmk/ Christian Metschina	Die Rolle der Land- und Forstwirte	19.10.2016	Murau, Austria	Oral	Yes
42	International	Central European Biomass Conference	Lk-Stmk/ Tanja Solar, Alfred Kindler	Sucelloq – Biomass Logistic Centre for Agrarian Residues	18.-20.01.2017	Graz, Austria	Visual (Poster)	Yes

3. Additional dissemination activities

In addition to articles and presentations, project partners have been using as well other dissemination tools and channels. Those included distributions of project flyer during third party events, e-mail communications and establishing links to project in other websites. An overview of these activities is listed in Table 6.

Table 6: Other dissemination means and activities

No	Dissemination level	Type of activities	Responsible partner	Title	Date	Place	URL/ magazine	Type of audience	Size of audience
1	National (France)	Distribution of Questionnaire	SCDF	Questionnaire biomasse SUCELLOG2 diffusé	May 2014	-	Sent by e-mail	Cooperatives	300
2	International	Distribution of Flyers	WIP	SUCELLOG Flyer	12-14.05.2014	AEBIOM European Bioenergy Conference, Brussels, Belgium	-	Participants of the conference

Annex: Summary of SUCELLOG project specific presentations

Partner/ Presenter:	Coopenergie/ Cyril Flamin
Date:	16.04.2014
Event:	Meeting of CA Coopenergie administrators
Place:	Thenelle, Aisne, France
Title (oral/visual):	SUCELLOG project (oral)
Summary:	On 16 April 2014 Cyril Flamin presented Sucelloq project to the administrators of CA Coopenergie. 15 people participated in this meeting. The presentation contained information about project objectives and intention to create new solid biomass production chains (logistics centers) based on existing agro-industrial installations. Thus, the equipment and facilities could be used during their idle period for the production and storage of solid biomass (e.g. pelletizers, dryers, conveyors, etc.). The cooperatives interested in this project were invited to contact Cyril Flamin.

<p>Photo:</p>	
<p>Summary:</p>	<p>Taking advantage of the event set up by the Spanish Food Platform about environmental criteria concerning food chain, a parallel event took place with several projects focusing on energy, by-products valorisation and involvement of stakeholders. Juan Sagarna introduced the SUCELLOG project that at this time has recently started. He highlighted the synergies with the current agro-food stakeholders, making the best with the idle periods on which the facilities are not used. Around 15 people participated in this meeting.</p>

Summary:	<p>The energy committee is a special event of Coop de France gathering cooperatives interested in working on energy (saving, renewable energies). It takes place every 4 months. During this meeting, the SUCCELLOG project was presented: organisation, the different WP and our first data from WP3, GIS, biomass market. 18 people were there, from regional associations or cooperatives, mainly cereal dryers. They were interested in the SUCCELLOG concept and to have more information about the results during and at the end of the project.</p>

To her right is a vertical banner for 'conecta bioENERGIA' with the LSOLE logo and the text 'Energía térmica industrial con biomasa' and 'Soluciones en vapor, frío, agua caliente y electricidad'.</p>
Summary:	<p>The International Fair of Biomass Expobiomasa celebrated a special event dedicated to fostering the bioenergy into the agro-industrial sector. CIRCE was invited to present the goal of the project, explain the synergies that agro-industries have to become biomass logistic centres and the free services that are offered to agro-industries willing to start this new business line. The event gathered around 70 people, most of them from the agro-industrial sector.</p>

Partner/ Presenter:	DREAM/ Enrico Pietrantonio
Date:	07.11.2014
Event:	Ecomondo: 18 th International Trade Fair of Material & Energy Recovery and Sustainable Development
Place:	Rimini, Italy
Title (oral/visual):	SUCELLOG (oral)
Agenda:	<div style="text-align: center;">  </div> <p>Il giorno venerdì 7 novembre alle ore 9,30 presso l'area COOPERAMBIENTE all'interno della fiera di ECOMONDO (Rimini) nel padiglione B5, si terrà un incontro tecnico per illustrare alcune attività finanziate dalla Comunità Europea a vantaggio delle imprese agro-alimentari.</p> <p>Legacoop Agroalimentare, con l'appoggio tecnico della coop. D.R.E.Am. Italia, nell'ambito delle <u>iniziative europee per la riduzione dei consumi energetici e di sviluppo delle energie rinnovabili</u>, sta svolgendo importanti iniziative a favore delle COOPERATIVE associate per promuovere l'efficientamento energetico e l'utilizzo <u>delle biomasse di origine agricola</u>.</p> <p>A tal fine sono già in corso i Progetti Europei TESLA e SUCELLOG che vedono interessate in Italia numerose regioni, e sono rivolti principalmente alle cooperative dei settori agro-alimentari. I temi trattati sono l'efficienza energetica dei processi produttivi e la possibilità di avviare, al fianco delle attività ordinarie, attività di lavorazione e commercializzazione delle biomasse di origine agricola.</p> <p>Le Cooperative SENZA ALCUN COSTO possono usufruire delle consulenze tecniche offerte dai progetti, per valutare la fattibilità di queste possibili nuove attività imprenditoriale o per orientare, ad esempio, nuovi investimenti sugli impianti con il supporto di precise analisi energetiche.</p> <p>Al termine della presentazione, e comunque sempre nel periodo di fiera, ci sarà la possibilità di incontrare singolarmente le aziende interessate ad approfondire tecnicamente le tematiche.</p> <p>Certi dell'interesse che i temi proposti rivestono per le vostre attività, contiamo di potervi incontrare al work-shop proposto.</p> <p>PROGRAMMA</p> <p>09.30 – Introduzione del Direttore Legacoop Agro-alimentare Dott. Giuseppe Piscopo</p> <p>09.45 – Il progetto Europeo TESLA: l'analisi dei consumi nelle imprese agro-alimentari – Ing. Enrico Pietrantonio, DREAM coop.</p> <p>10.15 - Il progetto Europeo SUCELLOG: la catena delle biomasse agricole per incrementare il reddito d'impresa – Dott.ssa Fiamma Rocchi, DREAM coop.</p> <p>10.45 – Spazio per le domande e per incontrare le imprese</p> <p style="text-align: right;">Per informazioni: Ing. Enrico Pietrantonio mob. +39 349 2903662 mail: pietrantonio@dream-italia.net</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Co-Funded by the Intelligent Energy Europe Programme of the European Union</p> </div> <div style="text-align: center;">  </div> </div>

<p>Photo:</p>	
<p>Summary:</p>	<p>The event has taken place into the area of the Cooperatives inside the international fair of “Ecomondo” in Rimini. Taking advantage of the location inside the important fair, gave the possibility to reach a heterogeneous target of public, composed by technicians, managers of cooperatives and students. The project has been presented to the public, its possibilities and options, answering the questions and requests from attendants.</p> <p>In the area, a stand was dedicated to the European projects, with also a specific place for SUCELLOG, its leaflets and posters.</p>

Summary:	<p>The ADEME (French Energy Agency) organised the meeting with their regional association. 4 people participated in this meeting. The aim of this meeting was to convince the Champagne-Ardennes ADEME to get involved in SUCELLOG project activities. The concept of the project and planned activities with Luzeal (one of the case studies of the project) has been presented.</p> <p>The main conclusion was that ADEME has many difficulties in developing the biomass consumption in Champagnes (focusing only on wood) and does not want to get more involved in developing agricultural biomass projects since it will make competition with wood biomass sector.</p>

Summary:	<p>The RMT biomass & territories is a national network gathering people working on biomass (research, associations/unions, governmental organisations, ADEME etc.). It has more than 30 regular members and 100 people in total. The RMT is organised in workpackages. SCDF is coordinating the biomass logistics workpackage. In the first meeting of this work group 7 people participated and SUCELLOG project was presented (concept, main expected results). Regularly, new points are done during meeting to quickly present the current results.</p>

Summary:	<p>In the National Congress of Cooperatives organized by Spanish Cooperatives, an afternoon session was focused on Industrial innovation in cooperative facilities. The SUCELLOG project was presented and the manager of the cooperative chosen as Category 1 in Spain, Joaquin Duaso of San Miguel de Tauste, participated in a round table, explaining the experience of his company. In total 34 people participated in this meeting.</p>

Date:	20.05.2015
Event:	Erfahrungsaustausch Kammersekretäre
Place:	Halbenrain, Austria
Title (oral/visual):	Agrarische Brennstoffe - Chance gegen die Energiekrise (oral)
Photo:	
Summary:	<p>At this event – organised by the Chamber of Agriculture and Forestry, Mr. Kindler presented the idea and the goal of the Sucellog project to the Chamber Secretaries of Styria (12 people). They are an important link to the farmers, as well as to the companies, in the upstream and downstream sectors. Within the presentation the background of the project and the practical implementation in the various regions of Styria were discussed. Within this discussion the experience of the Chamber Secretaries was very valuable.</p> <p>The project was considered as very useful because the general opinion was that the use of agricultural biomass is of high importance to achieve the energy and climate objectives.</p>

Event:	European Biomass Conference and Exhibition (EUBCE)
Place:	Vienna, Austria
Title (oral/visual):	The SUCELLOG Project Triggering the creation of biomass logistic centres by the agro-industry (oral)
Agenda:	<p>Title: Triggering the Creation of Biomass Logistic Centres by the Agro-Industry</p> <p>Author(s): Khawaja, C., Janssen, R., López, E., García, D., Naudy, V., Sagama, J., Rivera, S., Cerezo, I., Poutrin, C., Pietrantonio, E., Solar, T., Kindler, A., Engelmann, K.</p> <p>Document(s):  Paper Download pdf  Slide presentation Download pdf</p> <p>Abstract: SUCELLOG project aims to widespread the participation of the agrarian sector in the sustainable supply of solid biomass in Europe. The project focuses on the implementation of logistic centres in the agroindustries as a complement to their usual activity in France, Italy, Spain and Austria. Some industries are equipped with pelletisers, drying systems etc. and work in most cases under seasonal regime. These facilities can be utilised in the idle periods to handle and pre-treat biomass feedstock obtained from different agrarian residues existing in the area to produce quality solid biomass. This paper presents the major activities and outcomes of the project. The project offers technical support to 4 selected European agro-industries aiming to start new agro-industry logistic centres in their facilities by providing an evaluation of their boundary conditions, a complete business model for the company and monitoring the operation during their first production season. A start-up diagnosis and an auditing service will be provided to another 80 agro-industries who are interested in the project concept. Furthermore, the project will create capacity building in regional and national agrarian associations which in turn will provide support services to their associates also in other regions and countries.</p> <p>Keywords: agricultural residues, bioenergy, logistics, agroindustrial residues, agropellet, capacity building</p> <p>Topic: Industry Sessions</p> <p>Subtopic: Biomass Resources (Crops,SRF, Algae and Organic Waste)</p> <p>Event: 23rd European Biomass Conference and Exhibition</p> <p>Session: ICO.8.1</p>
Summary:	Cosette Khawaja (WIP) presented SUCELLOG project on the 23 rd European Biomass Conference and Exhibition in Vienna, Austria. The oral presentation included information about SUCELLOG concept, project structure and expected outcomes. First results from regional studies have been presented. Around 45 people attended the session, were the presentation was given.

Photo:	 
Summary:	At this International Pellet Workshop, which has been organised by AEBIOM in Cologne on the 09 th of June, Mr. Kindler from Lk-Stmk

	<p>participated in order to present the Idea of Sucelloq with a poster and distributed also the Sucelloq-Flyer to inform the audience about the possibility to produce agrarian fuels. On behalf of the project team he could show the alternative possibilities for pellet production, which caused a lively discussion within the participants of the workshop, as the rising wood pellets imports from Canada and US were intensively discussed. In the fair for pelletisers (VICTAM) Mr. Kindler used the possibility to discuss with various equipment producers about the opportunities in the field of agricultural biomass. It turned out, that within the pelletizing process of agricultural biomass no technical hurdles are to be expected. In total 67 people have seen the presentation of SUCELLOG project.</p>

Date:	15.10.2015
Event:	Meeting of CA Coopenergie administrators
Place:	Clairoix, Oise, France
Title (oral/visual):	SUCELLOG project (oral)
Summary:	On 15 October 2015 Cyril Flamin presented an update of Sucelloq project to the administrators of CA Coopenergie. 15 people participated in this meeting. After the presentation two cooperatives - NORIAP and TEREOS communicated their interest in the project services. It was agreed to prepare diagnosis audit with these two cooperatives.

Partner/ Presenter:	DREAM/ Marcello Miozzo	
Date:	03.11.2015	
Event:	Ecomondo: 19 th International Trade Fair of Material & Energy Recovery and Sustainable Development	
Place:	Rimini, Italy	
Title (oral/visual):	Sucellog (oral)	
Agenda:	 <p>Il giorno martedì 3 novembre 2015 dalle ore 14,00 alle 16,00 presso la Sala COOPERAMBIENTE all'interno della 19a fiera di ECOMONDO (Rimini), D.R.E.Am. Italia organizzerà il WORKSHOP:</p> <p>"Progettazione Europea per l'Ambiente nei programmi LIFE, IEE e HORIZON 2020: Il laboratorio delle idee nei settori forestale, agricolo e agro-alimentare"</p> <p>Nell'incontro verranno presentati i progetti delle Call degli anni 2012-2014 riguardanti approcci innovativi per la riduzione degli impatti nell'agricoltura e foreste e alcune attività finanziate dalla Comunità Europea a vantaggio delle imprese agro-alimentari.</p> <p>Tra queste ultime Legacoop Agroalimentare, con l'appoggio tecnico della coop. D.R.E.Am. Italia, nell'ambito delle iniziative europee per la riduzione dei consumi energetici e di sviluppo delle energie rinnovabili, sta svolgendo importanti iniziative a favore delle COOPERATIVE associate per promuovere l'efficiamento energetico e l'utilizzo delle biomasse di origine agricola.</p> <p>A tal fine sono in corso i Progetti Europei TESLA e SUCELLOG tramite i quali le Cooperative SENZA ALCUN COSTO possono usufruire delle consulenze tecniche offerte, per valutare la fattibilità di possibili nuove attività imprenditoriali o per orientare nuovi investimenti sugli impianti con il supporto di precise analisi energetiche. Al termine della presentazione, e sempre nel periodo di fiera, ci sarà la possibilità di incontrare singolarmente le aziende interessate ad approfondire tecnicamente le tematiche.</p> <p>PROGRAMMA:</p> <p>14.00 LIFE EVERGREEN Il progetto intende dimostrare l'efficacia e l'affidabilità dell'uso delle biomolecole basate su polifenoli, recuperate dalla biomassa non alimentare e dai rifiuti, come prodotti per contrastare i batteri fitopatogeni e i nematodi.</p> <p>14.15 LIFE BIOCOPACPlus Questo progetto si prefigge di dimostrare la fattibilità tecnica e l'efficacia su scala industriale della produzione di una bio-vernice ottenuta dai rifiuti di pomodori e il suo utilizzo come rivestimento nei contenitori metallici utilizzati per gli alimenti.</p> <p>14.30 LIFE SEMENTE perTEcipato Questo progetto mira a creare e mantenere un incrocio composto di linee del germoplasma del grano duro (<i>Triticum turgidum subsp durum L.</i>), e di altre specie del genere <i>Triticum</i>, mediante un miglioramento genetico evolutivo finalizzato a creare agrosistemi più resistenti ai cambiamenti climatici.</p> <p>14.45 LIFE-AGRICARE L'obiettivo del progetto è dimostrare che l'impiego di nuove applicazioni integrate in agricoltura, comprendenti tecnologie agricole di precisione, presenta notevoli potenzialità in</p>	 <p>termini di risparmio di energia e riduzione del gas serra.</p> <p>15.00 LIFE PPROSPET Il progetto mira ad introdurre in Italia, in particolare in Toscana, la tecnica della selvicoltura d'albero applicata alla gestione e alla conservazione delle specie arboree sporadiche in bosco. La valorizzazione, anche economica, di queste specie rare e talvolta minacciate, è proposta per aumentare la biodiversità, la stabilità ecologica e il valore dei boschi attraverso una tecnica innovativa, integrabile con quelle tradizionali, che può essere facilmente diffusa in altre regioni d'Italia e d'Europa.</p> <p>15.15 PROGETTO TESLA Il progetto mira alla riduzione dei costi energetici nelle cooperative europee del settore agroalimentare, promuovendo le buone pratiche sull'efficienza energetica attraverso audit energetici e proposte di migliorie tecniche, con accesso a strumenti, tecniche e procedure, a 110 cooperative dei settori vitivinicolo, ortofruttilico, mangimistico e olicivo.</p> <p>15.30 PROGETTO SUCELLOG Lo scopo del progetto è promuovere e incentivare la partecipazione del settore agricolo nella fornitura sostenibile di biomasse solide in Europa. SUCELLOG si concentra su di un concetto praticamente inesplorato: l'implementazione di un centro logistico di trattamento della biomassa all'interno delle agro-industrie come complementario all'attività principale. Gli impianti presenti nelle agro-industrie possono essere utilizzati nei periodi morti per gestire e pretrattare la biomassa (principalmente derivante dai residui agricoli) al fine di produrre una biomassa solida di alta qualità da introdurre nel mercato.</p> <p>Per informazioni: Dott. Fur. Marcello Miozzo mob. +39 335 5643070 mail: miozzo@dream-italia.it</p> 
Photo:		
Summary:	<p>In the space of Cooperambiente, inside the international fair of Ecomondo, set up a general presentation about the project, its goals and purposes. The public was mainly composed by managers of cooperatives and technicians.</p> <p>After the presentation, personal from D.R.E.Am. Italia was available to have face-to-face meetings with interested companies. These meetings took place in a dedicated area of the fair.</p>

Photo:		
Summary:	The Workshop of Project SUCELLOG took advantage of the National Directorate of Legacoop Agroalimentare, at the Legacoop headquarters in Rome. Focus of the interventions was also the opportunities for SMEs/Cooperatives by European funding programs on specific issues, an example of which is the project SUCELLOG. The attendants were all the managers, presidents and directors of the cooperatives of the agro-food sector members of Legacoop – 28 people in total. During the meeting, the project and its activities has been shown, in particular the opportunity for agro-industries to become a logistics center for the production of biomass from agricultural residues.

Date:	13.06.2016
Event:	Meeting of CA Coopenergie administrators
Place:	Thenelle, Aisne, France
Title (oral/visual):	SUCELLOG project (oral)
Summary:	On 13 June 2016 Cyril Flamin presented Sucellog project to the administrators of CA Coopenergie. 15 people participated in this meeting. Results of 3 auditing studies have been presented.

Partner/ Presenter:	Coopenergie/ Cyril Flamin
Date:	03.10.2016
Event:	Meeting of CA Coopenergie administrators
Place:	Venette, Oise, France
Title (oral/visual):	SUCELLOG project (oral)
Summary:	<p>On 3rd of October, 2016 Cyril Flamin presented the update of Sucelloq project to the administrators of CA Coopenergie. 15 people participated in this meeting. During the presentation Mr Flamin explained that among the 3 audited sites (Tereos ATTIN, UCAC St Sulpice aerea, Cambronne, Clermont and NORIAP for the Valmont site reconversion) only one seems to be compatible with the production of agropellets at acceptable costs. The market issue remains the main problem for the project development. He informed that a workshop is planned the 17th of November at CEREMIS to discuss the conditions for the development of agropellets sector in the Hauts-de-France region in parallel to wood industry. Cooperatives, energy companies, boiler manufacturers, farmers and municipalities were invited.</p>

Summary:	<p>SUCELLOG specific presentation was carried out by CIRCE inside the FIGAN (International Fair for Animal Production). CIRCE organized an event to promote the use of agriculture resources inside another H2020 project (Up_running). The opportunities for the agro-industries to become actors of this new supply chain (as promoted by SUCELLOG project) were explained. In total 44 attendants from the agrarian and energy sector followed the workshop.</p>																															

Partner/ Presenter:	CIRCE
Date:	15.04.2017
Event:	Interview on Spanish national radio - RNE
Place:	Spain
Title (oral/visual):	Interview about SUCELLOG project and case study examples
Summary:	In the interview, CIRCE and two of the agro-industries (San Miguel de Tauste and TROIL Vegas Altas) supported by SUCELLOG, explained the concept of the Project highlighting the interesting opportunities that the agro-industries are facing when owning a residue that could be used in their own facilities. One of the concrete initiatives, dealing with the production of mixed pellets that was supported through the project in a fodder dehydration facility has been explained. Finally, the advantage that the cooperative concept (against other type of organisations) when developing this kind of initiatives has been pointed out.

P2.1.25

Partner/ Presenter:	CIRCE
Date:	20.05.2017
Event:	Broadcast on Spanish Television
Place:	Spain
Title (oral/visual):	Interview about SUCELLOG project and case study example http://www.rtve.es/alacarta/videos/agrosfera/agrosfera-20-05-17/4027882/
Agenda:	n/a
Photo:	
Summary:	<p>The broadcast starts with the explanation of the un-tapped potential of agricultural resources in Spain, evaluated within S2Biom project, highlighting the opportunities that their use could bring to the rural economy. Then, SUCELLOG concept is explained through the case of the Spanish agro-industry supported by the project that is currently making compatible the production of Lucerne fodder with the production of forest wood pellets. The fact that they are taking advantage of the synergies in equipment, facilities and man-force reducing considerably the risks associated to the new activity is emphasized.</p>
